Oil gel pack

By gelling a large amount of oil into an oily polymer, a strong adhesive is not necessary. When peeling off, the amount of exfoliation of the horny layer is less, so it is gentle to the skin.

3 Highly penetrative

Comparison of tocopherol acetate penetration

Our oil gel formula allows the ingredients to penetrate the skin better than creams and water-based gels.

4 Various care applications

Nighttime moisturizing pack

Lifting pack

Skin texture and sagging care pack

Firming pack

It has high penetration and can be adhered for long periods so oil gel can be applied for variety purpose.
